

TE IPUKAREA SOCIETY
Caring for our Environment

Environmental Caucus of
The Democratic Party of Hawai'i

Aloha Chair Gabbard, Vice Chair Richards, Chair Inouye, Vice Chair Elefante, and Members of the Senate Agriculture and Environment and Water and Land Committees:

We write to express our strong support for Senate Bill 2575 to 1) prohibit the mining, extraction, and removal of minerals from the seabed in Hawai'i's marine waters; and 2) prohibit the issuance of any permit for or in connection with the development or operation of any facility or infrastructure associated with the mining, extraction, or removal of minerals from the seabed within state marine waters.

Every new research dive to the seafloor reveals amazing wildlife and new discoveries about the role the deep sea plays in the health of our ocean and our lives. Seabed mining directly destroys whole communities of life on the seafloor, leaving behind habitat that may never recover. Mining also creates extremely large and potentially toxic sediment plumes; as well as noise, light, and thermal pollution that disrupt marine habitats. [More than 800 ocean scientists](#) have called for a halt to seabed mining citing the risks it poses to ocean health and the well-being of coastal communities.

Hawai'i cannot afford to risk losing our social, cultural, and economic connections to the sea. The seafloor and ocean underpin Hawai'i's cultural heritage, along with its multi-billion dollar tourism and fishing industries. As the extractive industry grows, seabed mining activities pose a large-scale disruption to these important ecosystems. Seabed mining would harm commercially and recreationally important species like tuna/ahi, mahi-mahi, billfish and other species as well as the overall health of our ocean.

The State of California passed a ban on seabed mining in state waters last year in 2022, following Washington's seabed mining ban in 2021 and Oregon's in 1991. The undersigned organizations urge Hawai'i to do the same and ensure passage of SB2575 to protect Hawai'i's coastal waters.

Thank you.

Sincerely,

Koda Daily
